

IS YOUR PAPER PRODUCTION OUT OF SYNC?

Dryer Drainage May Be The Culprit.

If Your Dryer Drainage System Is Inefficient, You Lose Steam, Drying Capacity and Money.

The Thermocompressor is the heart of your dryer drainage system. Fulton Systems offers a **Thermocompressor Rebuild Program** that could be your solution.

What Causes Inefficiency in Thermocompressors?

- Changes in production (speed, grades, furnish, etc.).
- Steam pressures or flow rates have changed.
- The dryer drainage system has been modified.
- New syphons.
- Wear caused by poor quality steam.
- Misapplication due to error or layout changes.

Thermocompressor
The heart of your dryer drainage system.
